To:Gabinete PM <gabinete.pm@pm.gov.pt>

Hello again,

further to my previous posts, you might now be appreciating that the whole world is being played by BIG GUV, BIG MED and BIG PHARMA - formidable adversaries.

The last link I sent you (which I attach again here for your reference)

https://articles.mercola.com/sites/articles/archive/2020/08/30/how-to-nebulize-hydrogen-peroxide.aspx?cid_source=dnl&cid_medium=email&cid_content=art1HL&cid=20200830Z1&mid=DM641317&rid=952612832

states quite clearly, through the hands-on experience of Dr David Bronstein of Detroit, that the USofA FTC emphatically refutes Dr Bronstein's clinical results because there is no known cure for Covid19.

What's that all about, you might ask yourself?

Here is Dr Bronstein saving lives and being ordered to cease and desist by the USofA, Federal Trade Commission (FTC).

What they know about medicine wouldn't cover a postage stamp.

All the heavyweights are being lined up to ensure that the aforementioned BIG GUVS, BIG MEDS & BIG PHARMAS get all the money as well as the kudos - with none of the ensuing negligence claims.

Sounds like this deal was made in heaven.

Now, every country is doing the same, masking, social distancing, using hand sanitisers - stopping people from working and guess what? IT AIN'T WORKING. What it is doing is destroying countries' economies, work forces, businesses, making them ripe, easy-picking targets for rapacious investors.

Now, rather than following the herd mentality why not try something radical. Instead of throwing money (which you don't have) at your working populace, why not supply them with the vitamins and supplements to ensure that their

immune systems are up to the task of fighting off Covid19 and other viruses. Dr Bronstein has proved and is still proving that a robust immune system is all you need to survive Covid 19.

Most people do not have robust immune systems.

Most people (and their kids) eat a whole load of junk food with zero nutritious value.

This will cost your country a whole lot less than throwing money at the unemployed.

I am sure that there are vitamin companies in Portugal who would be happy to supply (at cost) should the volume of supply be big enough.

This way, you get everyone back to work, all the business open, no social distancing and no masks.

However, it would be prudent to use controlled areas first.

That would be easy to do.

Seal off a town - no one goes in or out for one month.

No masks, no social distancing - no hand sanitisers - none of this nonsense, just supply everyone with vitamins C, D3&K2, zinc and iodine then wait and see what develops.

Should the whole thing blow up, then you have Dr Bronstein's cheap, life saving remedy at hand.

Don't do this and you will wake up - albeit too late - to realise that your country and your government and everyone else's country and government have been well and truly sandbagged and bought for peanuts by rapacious vulture capitalists.

Then again, should you already be aware of the above sandbag scenario, then kindly ignore what I have said.

All the best

Ozone Without Borders Update July/August 2020
More Content Added!

In this time of uncertainty, we at Ozone Without Borders have decided that it would not be advisable for us to have a conference this year and we look forward to resuming our annual conferences in April 2020, announcements will be sent to email and social media as we get closer to that date.

On another note, we shall make these conferences and their contribution amounts less and less as we go, look forward to that and it should help you bring those that are interested Medical Ozone to the conferences. This will allow for those that could not normally afford to go. We are looking at scholarships, subsidies and leasing company partners. All in all more and more exciting thing coming to your society and for your memberships with our ever growing movement to make medical ozone a standard in medicine.

We thank you for your contributions thus far and for those that have paid for the conference in 2020, you do have some options. Should you wish a refund due to financial difficulties, we have been authorized for this time only to do so. Please feel free to contact me directly at peter@ozonewithoutborders.ngo with your request. You can also, save your contribution and either apply it to next years conference or for the many courses and videos we have on the site or even contribute to our society and mandate if you wish.

Latest Site News

This is a partial list of the latest additions to the site:

We now have a RMDIV Course online that any medical professional can take, credits given, click here <https://ozonewithoutborders.ngo/rmdivcourse2020/>

We have a video for patients and those that wish to learn basic instruction for Ozone at Home on the main page of the site.

We are working on a basic course on medical ozone, MAHT, Saline Infusion and many, many more.

There are many videos and audio podcasts on the site including the lectures from the previous conferences here <https://ozonewithoutborders.ngo/ozone-conference-videos/>

We are working on and have funded four major studies at home and abroad and will be funding many more as we go into the future.

An addition of two more professional members to our group, The Molecular Hydrogen Institute and H2 Beverages, you can find them here,

<http://www.molecularhydrogeninstitute.com/> and here

<https://ozonewithoutborders.ngo/hydro-shot/> the only drink in the world with Molecular Hydrogen and Nitric Oxide, take a look.

We have also created an area for Hydrogen and we are introducing a low cost Hydrogen Breathing Unit for those interested here <https://ozonewithoutborders.ngo/h2-hydrogen-inhalation-and-drinking-system/>

We have the best source of probiotics in the world here <https://ozonewithoutborders.ngo/doctors-biome/> as well as many articles on Microbiome.

We have an inexpensive place to purchase Carbon 60 for those interested along with articles on its use here <https://ozonewithoutborders.ngo/bucky-tech-c60/>

We have an Ozone Forum on the site that you can use to post, interact, ask question or whatever you want to do on the forum, no spam please, you can find it here <https://ozonewithoutborders.ngo/ozone-forum/>.

There is a comprehensive list of practitioners on the site, if you would like to be listed, contact us. Also ask for our logo and link so that you receive traffic from our site.

All things COVID-19 can be found here <https://ozonewithoutborders.ngo/ozone-for-covid-19/>

We can go on and on, but as you can see, we are creating the largest Medical Ozone Site in the world. I encourage all of you to go and poke around the site and take a look for much more than we have covered here and to become a member of Ozone Without Borders and contribute to our push to make medical ozone therapy a standard in medicine.

Please feel free to give any feedback, suggestions, postings and anything else that you think will make our site and society better.
